Subject Index to Volume 10

A

Aggression, thalamic modulation of 85
Alcohol, the effect of, and barbiturates on the frequency of atrial and ventricular premature beats during sleep 102

B

Barbiturate, the effect of alcohol and, on the frequency of atrial and ventricular premature beats during sleep 102
Behavior, instrumental, the sensory nature of reward in 23
Biochemical differentiation in the central nervous system, aspects of 226

C

Cardiovascular dynamics during classical appetitive and aversive conditioning in laboratory primates 66
Central nervous system, aspects of biochemical differentiation in the 226
Chronobiology 161
Classical conditioning procedures, vicariously instigated and direct, a comparison of the effects of 216
Conditional reflex studies in schizophrenia in France, a note on 142
Conditioning, classical appetitive and aversive, in laboratory primates, cardiovascular dynamics during 66
Conditioning, effects of partial reinforcement on, conditional probabilities, asymptotic performance and extinction of the rabbit's nictitating membranes 13
Conditioning, operant GSR, with cool air reinforcement 239

E

External stimulus and an overt response, what happens between 112

F

Forearm vein of man, psychogenic and neurogenic effect on the intact 130

G

GSR conditioning, operant, with cool air reinforcement 239

H

How to do basic medical research (editorial) 187
Hydroxylation of tryptophan and its control in brain 145

N

Nervous activity, higher, in functional psychoses, studies of .. 194
Neurosciences preserved, truth, friendship and self-control ... 63
Nictitating membrane, rabbit, response, effects of partial reinforcement on conditioning, conditional probabilities, asymptotic performance and extinction of the 13

O

Overt response, what happens between an external stimulus and an 112

P

Presentation of presentation (editorial) 125
President of What? (Presidential address) 1

Nictitating membrane, rabbit, response, effects of partial reinforcement on conditioning, conditional probabilities, asymptotic performance and extinction of the 13

O

Overt response, what happens between an external stimulus and an 112

P

Presentation of presentation (editorial) 125
President of What? (Presidential address) 1

Psychogenic and neurogenic effects on the intact forearm vein of man 130
Psychoses, functional, studies of higher nervous activity in ... 194

R

Reinforcement, what is a schedule of 53

S

Schizophrenia in France, a note on conditional reflex studies in 142
Schizophrenia, Tromsø Symposium on 120
Sleep, the effect of alcohol and barbiturate on the frequency of atrial and ventricular premature beats during 102

T

Temporal placement, varying, during CS of an added stimulus correlated with non-delivery of UCS 76
Thalamic modulation of aggression 85
Tryptophan, hydroxylation of, and its control in brain 145

Contributors to Volume 10

A

Agathon, M. 142
Andy, O. J. 85
Astrup, C. 120, 194

B

Boness, D. J. 112
Brady, J. V. 66
Burch, G. E. 130
Burns, E. R. 161

C

Cole, B. K. 53
Coleman, S. R. 13

F

Feinstein, R. 102

G

Gál, E. M. 145
Giurintano, L. 85
Giurintano, S. 85
Gooden, B. A. 102
Gormezano, I. 13
Greco, T. S. 216
Gurucharri, F. W. 239
